PROFESSIONAL SUMMARY

Backend-focused SDE with **2+ years** building scalable, fault-tolerant systems for a US-based enterprise SaaS platform. Owns features end-to-end — API design through deployment and production support — with a track record of measurable performance and reliability gains.

TECHNICAL SKILLS

Languages	Python, JavaScript, SQL
Frameworks	Flask, FastAPI, Django, REST API Design, Microservices
Databases	PostgreSQL, MongoDB, MySQL — Indexing, Query Optimization, Schema Design
Cloud & Infra	AWS Lambda, S3, CloudWatch, EventBridge — Serverless, CI/CD
Integrations	QuickBooks Desktop, Sage Intacct, NetSuite, Gemini, IronSight
Data Engineering	Pandas, NumPy, ETL Pipelines, Data Validation
Tools	Git, Jira, Postman, Agile/Scrum, Code Reviews, On-call Ops

PROFESSIONAL EXPERIENCE

Software Development Engineer — Bursys Infotech India Pvt. Ltd. Aug 2024 - Present

FieldEquip — multi-tenant enterprise SaaS serving 50+ clients across oil & gas, manufacturing, and logistics

- Owned end-to-end delivery of high-performance REST APIs (Flask, FastAPI) handling **10K+ daily requests** across web and mobile.
- Built **5 enterprise integrations** (QuickBooks Desktop, Sage Intacct, NetSuite, Gemini, IronSight), eliminating manual data reconciliation for US customers.
- Architected event-driven serverless pipelines (Lambda, EventBridge, S3), cutting infra costs **15%** while auto-scaling for **3x** traffic spikes.
- Optimized PostgreSQL/MongoDB via indexing and schema redesign — **+20%** query throughput, **-35%** p95 latency.
- Engineered ETL pipelines (Python/Pandas) processing **100K+ records/day**, improving downstream data reliability **40%**.
- Automated reporting workflows, cutting manual effort **30%** and turning decision turnaround from 3 days to same-day.
- Led root-cause analysis on production incidents, driving system uptime to **99.5%+**.

Process Analyst — eClerx Services Ltd. Dec 2023 - Apr 2024

- Resolved **200+** technical escalations for US/UK clients with **98%+** SLA compliance; top performer.
- Identified 5 recurring issue patterns, cutting average ticket resolution time **15%**.

Software Engineering Intern — ThinkNext Technologies Pvt. Ltd. Feb 2022 - Aug 2022

- Built reusable Django modules and REST endpoints; shipped 3 production-ready features in an Agile team.

KEY PROJECTS

FieldEquip — Multi-Tenant Enterprise SaaS (Flask, FastAPI, PostgreSQL, MongoDB, AWS Lambda)

- Core contributor — scalable APIs, 5 ERP/platform integrations, automated data pipelines across industry verticals.

Automated Reporting Engine (Python, Pandas, AWS S3)

- End-to-end pipeline automating CSV ingestion and cleaning, cutting manual effort 30% with same-day delivery.

EDUCATION

B.Tech, Computer Science & Engineering

Chandigarh Engineering College, Mohali

2018 - 2022 | CGPA: 7.6/10

CERTIFICATIONS

Python & Django Development — ThinkNext Technologies

Full Stack Development — Coding Blocks
